

Welcome to Wynnclyff

The following are points that will help make your stay here run smoothly.

- 1) All meals will be served in the red barn. Please reuse your cloth napkin by placing it in the cubby on the wall in the dining room after each meal and remembering the number. If you soil it and require a replacement, there are more available. Please ask the kitchen staff for assistance.
- 2) The building just West of the Barn is the Chapel, where Holy Mass, Confession and Meditations take place.
- 3) There are books for spiritual reading available for sale in the butler's hallway off the gathering room North of the kitchen. There is a pricelist on the inside of the book cabinet door. Payment can be made using the QR code on the placard near the books or by check to *Wynnclyff, Inc* and placed in the small box provided. There may be other used materials for spiritual reading placed nearby but not for sale. Please return any of these non-sale items before your departure.
- 4) Most rooms have a thermostat. You can set the thermostat to suit your own comfort.
- 5) For those staying in a room with a shared bathroom (Lodge and Farmhouse), be sure to unlock the opposite door after using the bathroom to allow your suitemate access to the bathroom. Doors with a pin next to the knob are locked by pushing the pin in and are unlocked by turning the doorknob. Do not pull the pin outward.
- 6) The water on the property is well water. It is perfectly safe to drink but is not the best tasting. Each room has a bottle of water provided. You can refill it from the filtered tap in the kitchen of each building (smaller faucet alongside the main faucet).
- 7) Smoking is allowed only outside or on screened porches.
- 8) If you find anything broken or in need of repair, please let the event director know so he or she or she can pass it on to the facility manager. Alternatively, scan the QR code here to submit the issue.
- 9) If you are walking on the property, please stay within the red lot lines shown on the diagram below. **Stay a minimum of 50' from the cliff edge. Do not go beyond the split rail fence on the cliff.** There is a path to the beach beyond the Shrine. You may walk along the beach as far as you desire. **Stay away from the cliff base.**
- 10) On your arrival, please use the linen set on your bed to make your bed. On the last morning of your stay, remove the pillowcase from the pillow and the flat sheet and fitted sheet from your bed (do not remove the mattress cover). Place the two sheets, along with your used towels, in the pillowcase and take to the laundry room of the building in which you are staying. The laundry room is in the basement except in the Lakehouse where it is in the first-floor bathroom. Before departure, neatly spread the quilt on the bed and replace pillow (without pillowcase) on the bed, making it look like it did upon your arrival.
- 11) When leaving, close all windows, turn heat thermostat (but not ones marked with only A/C) to 55 degrees or the Low setting and turn off all lights. We would also appreciate it if you would empty the waste basket in your room into the large waste container in the kitchen of the building in which you are staying.

Thank you very much for your attention to these details. Please enjoy your stay!
